### EXAMINER'S AMENDMENT

**The application has been amended as follows:**

Please cancel claims 17-19.

**The following is an examiner's statement of reasons for allowance:**

Claims 1-2, 4, 6, 10-11, 12, 14-16 are allowed because none of the prior art suggest the particular subset of the process steps forming an insulating film above the MISFET by a high density plasma CVD at a temperature of 450-700°C, depositing a silicon film on the insulating film and in the trench, filling the trench by a photoresist, then etching back the silicon film on the insulating film and removing the silicon film from the insulating film to leave the silicon film only on the inner surface of the trench, forming a dielectric film on a rugged surface silicon film and on the insulating film and forming a plate electrode on the dielectric film.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
